SÍTIO GERAIS

Alex Sandro Silva Santana

Alex Sandro was raised in Povoado de Gerais, in the location of Piatã, Chapada Diamantina region Bahia, Brazil. Just before his age of 10 years old, he was already surrounded by coffee and, since then, he felt in love and became interested in learning how to manage coffee.

At 15, he got 1.5 hectares of land from his mother, Creusa – his biggest supporter–, and began planting his first coffee trees. In 2014, Alex participated for the first time in the Cup of Excellence. In 2015, he ranked 14th in the international championship and in 2016, including 4th place for a blend produced together with his mother. In 2019, he won 27th place in the COE.

Today, at 39, he lives entirely from the passion and dedication he nurtures through his production.
